## SUMMARY

Experienced Full Stack Developer with 4 years of industry expertise, consistently delivering robust web applications and exceptional user experiences to 10+ clients. Committed to contributing my skills to a collaborative team, while continuously expanding my knowledge in this rapidly evolving field. Actively pursuing a challenging role that nurtures innovation and promotes ongoing professional development.

## WORK EXPERIENCE

- Software Engineer Intern – breathing.ai** Sep 2023 - Present
- Optimizing API redirection to enhance consumer feedback management, utilizing Loopback framework
  - Mitigating critical concerns like URL injection restricting extension access to unnecessary file paths, employing **Node.js**
- Graduate Teaching Assistant - Stevens Institute of Technology** Sep 2022 - May 2023
- Employed the Ticketmaster and Pokemon APIs to develop Ticketmaster clone and Pokemon-catching applications respectively, serving as instructional tools to introduce **React.js**, **Redux.js** concepts to over 100 students
  - Structured a Pinterest clone leveraging **GraphQL** to facilitate the storage and uploading of 100+ local and online images to Redis
  - Conducted comprehensive tutoring sessions for 140+ students while grading 200+ assignments and 10+ projects improving conceptual understanding and proficiency in building applications
- Full Stack Developer - Freelance** Jul 2019 - Jul 2021
- Spearheaded digital transformation of an air-conditioner business, developing a website that attracted local buyers and boosted sales by 50%, surpassing the limitations of the paper-based system implementing HTML5, **CSS3** and JS
  - Implemented **Bootstrap** and JQuery to create an interactive dashboard for a financial firm to track loan collection amounts, total loans issued, assets and debt statistics for 50+ debtors leading in 20% increase in loan issuance
- Associate Software Engineer - CRISIL Ltd.** Jan 2017 - Jul 2019
- Developed FULKRUM product (similar to Oracle Business Intelligence) for creating dashboards implementing Angular.js, Java, JQuery, and **SQL** for wholesale banking customers helping the users extract crucial data for decision making
  - Engineered a 10-level performance rating portal for Senior Regional Managers to analyze consumer feedback in various regions resulting in better customer interactivity across regions
  - Effectively led a 5-intern team in developing an Access Control module for various access and authorization activities using **Firebase**, resulting in streamlined security protocols and enhanced user data protection

## ACADEMIC / PERSONAL PROJECTS

- House of Books** Feb 2022 - May 2022
- Designed the user interface for a digital bookstore, leveraging React, Express, **MongoDB**, and Sass, seamlessly integrating cart functionality employing **Redux** for managing purchases and rentals of over 500 books
  - Leveraged **Netlify** to streamline the online hosting of the application's frontend, minimizing the need for users to download, install, and run local resources, enhancing user convenience
- MediaHub** Aug 2021 - Dec 2021
- Engineered a review system to rate over 100+ movies and shows to help users plan their watchlist using **Express.js** and MongoDB
  - Designed a user profile component, offering personalized experiences with options to manage details and wish-lists using React.js

## LEADERSHIP EXPERIENCE / AWARDS AND NOMINATIONS / ACHIEVEMENTS

- Coordinated with external speakers to organize tech events and hackathons as Google Developer Student Clubs Secretary
- Mentored Stevens students, offering academic guidance and facilitating their adjustment to campus while providing essential information for a successful and swift acclimatization to life in the U.S.
- Earned the "Customer Delight Award" and "Breakthrough Initiative Award" from CRISIL Ltd. for speedy resolution of issues

## EDUCATION

- Master of Science in Computer Science** Aug 2021 - May 2023  
Stevens Institute of Technology
- Master of Science in Computer Application** Aug 2014 - May 2017  
University of Mumbai
- Bachelor of Science in Information Technology** Aug 2011 - May 2014  
University of Mumbai

## SKILLS

**Programming / Markup languages:** JavaScript, Python, SQL, HTML5, CSS3

**Frameworks / Libraries:** React.js, Redux.js, Express.js, Node.js MongoDB, Redis, GraphQL, Bootstrap, Sass, Styled Components
